EDUCATIONAL HISTORY

♦ Vardhaman college of Engineering

BTech in Computer Science and Engineering,
2016 - 2020, GPA - 9.0

- Developed a chatbot for college which got 1st prize in project hackathon and won campus-level coding contests
- Elected as president for FOSS Club for 2 years, ran after college student club.

LANGUAGES KNOWN

- English, Hindi, Telugu

PROFESSIONAL EXPERIENCE

Software Development Engineer

Dhan AI | April 2020 - Present

- Developing a Health Care Conversational AI using Rasa, Microsoft Bot Framework with custom NLP components.
- Designed and developed custom components to build a code less chatbot development platform using Bot framework.
- Wrote highly maintainable, solid code for Chatbots Dashboard, forming core framework and earning consistent praise from subsequent developers and clients since initial version.
- Led Chatbot development team as Subject Matter Expert and primary point-of-contact for the team.

Python Developer Intern

Synopsys | Sep 2019 - April 2020

- Coordinated with hardware and system engineering leads to gather data of different servers and wrote an API to insert this data into Elastic Search Database for each time interval.
- Applied change control best practices to Dashboard development processes using Dash and Flask to provide software enhancements without disruptions for end users.
